Visit # 8   Vision Therapist: Tara Meresak

Time spent with patient   Total time:
Start   12:07   Stop   1:00   53   minutes

Assessment:
Convergence insufficiency
Vertical heterophoria
Deficient smooth pursuit eye movements
Saccadic eye movements

Subjective
Back at his house now... Reading more and actually feels better!! Started ADHD meds as well and its helping him..Flipper with A/S - with binoc and supp got easier. Brock string is still giving him a little bit of a headache, diverging is still a little tricky. Eye strain is a lot less, even seeing depth in the world
better!

Ability: 1: Can't do ~ 20%   2: Challenging ~ 40%   3: Needs work ~ 60%   4: Appropriate ~ 80%   5: Too easy - add cognitive load ~ 90-100%

Vectogram:

Target used: Order #   Date - Target Used - BI Blur/Break/Recovery - BO Blur/Break/Recovery - SILO: yes/no

BI B/B/R

BO B/B/R

SILO

Ability:

Assessment:

Activity Description:

OCULAR MOTOR

Activity 33   Four Corner Chart

Ability: 4   X HVT

Assessment:
while hitting marsden ball: 5x5
did great on chart and no errors. noticed the string and not the ball so much.

Activity Description:
Chart used: 3x3, 4x4, 5x5, 6x7; # times place lost, self-corrected; Difference between eyes;
loading

ACCOMMODATION

Activity 12   Flipper binoc with supp. check

Ability: 3   X HVT

Assessment:
+/-2.00 binoc: - side is difficult , the transition to the - side is tough. + side is easy at first but getting more challenging as he progresses through the lines.

Activity Description:
Flipper used. Monoc; binoc or aniso with supp check (r/g, polaroid bars). Target. Which lens, eye is more difficult. Supp, how broken. How cleared, how quickly
cleared.

CENTRAL-PERIPHERAL, LAT/DIR, SPATIAL REL

Activity 7:

Ability: ___ HVT

Assessment:

Activity Description:

GROSS MOTOR, PRIM REFL, BILAT INTEGRATION

Activity 4:

VERGENCES / ATTENTION

Activity 21   Aperture Rule

Ability: 3.5   ___ HVT

Assessment:
Divergence: able to fuse all cards 1-7, no blur noted.
Convergence: able to fuse all cards 1-12, noted blur on card 9-12 and unable to clear
9-12.

Activity Description:
Fused to page #. Seated or standing. Coaching. Pointer.

ANTI SUPPRESSION

Activity 84   Cohen Circle

Ability: 3.5 / 4   X HVT

Assessment:
clear sports card:
divergence - able to fuse first three sets with ease.... unable to fuse last set -only gets 4 of the
balls.
convergence - able to do with ease. working feeling tones and moving back farther to work vergences. did
great!!

Activity Description:
Circle is l/c/r of stripe. Can manipulate or is stuck. Distance from chart. Range.
Coaching.

VISUAL PERCEPTION, VISUALIZATION

Activity 5:

Ability: ___ HVT

Assessment:

Activity Description:

D2, FINE MOTOR, VMI

Activity 66   D2

Goals: X Record Complete
Would like clear vision and better visual focus when working at his computer, would like dry eye symptoms to be better.

Impression:
CI -improving, vert heterophoria - improving
pursuits/saccades,-improving
stereo - improving

HVT plan: Equipment:

1 Flipper binoc with supp. check +/-2.00

2 Brock String - Bug on a string, 8^ prism on 1st

3 Stereocircle and tranaglyph with +/-1.00 flipper

4 Cohen Circle

Free Space Fusion card - diverge/converge and do jump duction

Programming Plan:

vtpe next visit. Doing great!! He would like to keep some equipment for maintenance at home. Graham feels
ready to graduate and he is looking really
good.

CATEGORY: Vergences/ Stereo

Activity: 5   Free Space Fusion Card

Ability: 3.5 / 4   X HVT

Assessment:

divrgence: able to do all four sets with ease. no blur
convergence: Able to do with pointer for first set then figured it out it out and fused all 4 sets with ease and no
blur.
Jumps between diverge/converge: able to do the first and second sets. did well! Really seeing depth on this
today!
